**Presentation and tests selected cloud solutions from “Big Data”,
in science application**

I presents a comparison of the most interesting solutions for monitoring distributed computer systems and implementations of Zabbix in Pi of the Sky. I presents also comparison of the most interesting cloud solution for cost effective big data storage and analysis. I also presents results of the comparative tests of the selected solution - Apache Spark and Apache Cassandra with the until now used software for data processing.

Serdecznie zapraszam
Agnieszka Majczyna
