HTGR Technology Development and Research in the world
IAEA Technical Working Group on Gas Cooled Reactors

Abstract:

The Technical Working Group on Gas Cooled Reactors is a group of experts nominated by their governments and appointed by the International Atomic Energy Agency (IAEA) Secretariat to provide advice and support programme implementation in the area of gas cooled reactor technology development. The purpose of the TWG meetings is to identify subjects of common interest for future collaboration through information exchange and cooperative research. Members of this TWG are: China, Czech Republic, France, Germany, Indonesia, Japan, Republic of Korea, Netherlands, Poland, Russian Federation, South Africa, Switzerland, Turkey, Ukraine, United Kingdom, USA.

During the seminar the author would like to summarize results of two TWG meetings, in 2017 and 2019. Actions related to the HTR technology in some of the member countries will be presented.

Serdecznie zapraszamy,
M. Dąbrowski, T. Kwiatkowski
