### **Key objectives and results of the Gospostrateg-HTR project**

#### **Abstract:**

The project entitled "Preparation of organizational and technical legal instruments for the implementation of HTR reactors" is carried out under the GOSPOSTRATEG strategic program and co-financed by the National Center for Research and Development. The project consists of two phases, research and implementation. The first phase of the project includes research work aimed at preparing test procedures and the equipment necessary for their implementation. Comprehensive analysis of the necessary changes to the legal environment and the potential benefits of social, economic and industrial units for the Polish economy are also included in the first phase. The second phase includes preparation for the implementing developed procedures and strategies in the first phase of the GOSPOSTRATEG-HTR project. During the seminar, I will present the key objectives and results of the project.

Serdecznie zapraszamy
